- Cloud Computing
- HTML, CSS and JavaScript

EXPERIENCE

Data Annotator
Forage AI, Remote   Sep 2023 – Jan 2024
- Labeled and annotated large volumes of data for AI/ML model training and evaluation.
- Maintained data accuracy and consistency across various annotation tasks.
- Collaborated with QA teams to refine labeling guidelines and improve dataset quality.

HACKATHON EXPERIENCE

- Developed a Smart Aqua Meter (S.A.M.) for IITMC Build to Innovate Challenge with my team and served as the web designer for the project.
- S.A.M. is designed to detect the moisture and flow level and irrigate the land based on the result.
